“As long as our brain is a mystery,
the universe, the reflection of the structure
of the brain will also be a mystery”

Santiago Ramón y Cajal (1852-1934),
neuroscientist and 1906 Nobel Prize Laureate

The Max Planck Institute for Brain Research is one of the leading research institutes in the field of neuroscience, with a focus on neural circuit function. There is a wealth of knowledge, new and old, on how our brains work. In our Association Friends of the MPI for Brain Research, we will share with you the latest research findings of our institute and provide an opportunity for you and your family to see how research is really done.

If you are interested in learning about the brain and about how neurons, synapses and neuronal networks lead to behavior and perception, you should become a member of our Association. Membership benefits include:

- A bi-annual newsletter, with an overview of the latest research results, activities and publications of the MPI for Brain Research, Frankfurt.
- Access to all the lectures of the institute.
- Visits to the MPI for Brain Research Laboratories.
- Access to the MPI for Brain Research Library.
- Invitation to "Brain Day" events for the entire family.
- Invitations to special evening lectures.

With your contribution, we will further support the efforts of our young scientists, by offering them additional funds for travel, publication of their results and scientific exchanges.

You can become a member by filling in our application form. The annual membership fee can be automatically transferred from your bank account.

Application form

I would like to become a member of the Association Friends of the MPI for Brain Research.

I agree that my personal data will be used, with the guarantee from the Association that it is only for its own purposes and that these data will not be shared.

Personal membership for € (minimum contribution: individuals 50 € per year; students 20 € per year)

Company membership for € (minimum contribution 1000 € per year)

The Association Friends of the MPI for Brain Research has a non-profit status. Donations to the Association are tax-deductible (by German Law).

I wish to be mentioned as member of the Association (name only) on the Institute's official website: Yes No

I hereby authorize the Association to automatically withdraw my annual contribution (..... €) from my bank account. Yes No
